The International Graphic, Paper and Creative Industry Fair, a regional fair event intended to promote technological achievements in the graphic industry, publishing, print media, design and advertising industry. In the production, finishing and processing of paper and other segments of these economic branches

It integrates mechanical engineering, information and communication technologies, creative and artistic graphic genres and skills, special-purpose IC and design hardware and software.

The exhibition program includes an extremely rich selection of

- ✓ machines, devices and equipment for the graphic industry,
- ✓ spare parts and components,
- ✓ used graphic machines,
- ✓ control and measuring devices and equipment,
- ✓ machines and equipment for recycling waste materials,
- ✓ raw materials,
- ✓ as well as final products of the graphic industry, creative and paper industries.

At the same time, the site where Grafima is held also hosts

➢ **the International Fair of IT and Office Equipment - Biro-Expo,** thematically focused on office business, and

➢ **the Packing and Packaging Fair PACKAM** - a specialized event, which covers the most diverse segments of packing and packaging, as well as machines and equipment intended for this industry.
